PRP Therapy Now Available at Umina

Life Medical Imaging Umina Beach now offers Platelet-Rich Plasma (PRP) therapy as part of our expanding interventional and musculoskeletal services. PRP therapy may be considered for a range of tendon, ligament, joint and soft tissue conditions, with treatment options available across multiple regions of the body.

Performed under the guidance of our experienced interventional team, PRP therapy complements our commitment to providing advanced, patient-centred musculoskeletal care on the Central Coast. Referrers interested in learning more about PRP therapy, patient suitability, or referral pathways are encouraged to contact our team.

Staff Spotlight

Dr Tony Kull Cardiologist

Life Medical Imaging is proud to work alongside Dr Tony Kull, a highly experienced general and interventional cardiologist with more than 25 years of dedicated service to the Central Coast community.

A founding member of the local acute heart attack (STEMI) service, Dr Kull has played a significant role in delivering life-saving cardiac care across the region.

Working across both public and private healthcare settings, he provides comprehensive cardiac assessment and management, helping patients access timely, high-quality care close to home.

Known for his patient-centred approach, Dr Kull is committed to ensuring every patient feels informed and supported throughout their healthcare journey. His extensive experience, clinical expertise, and long-standing connection to the Central Coast continue to make him a trusted leader in cardiology.

Events & Education

Coastal Goddess Wellness Lunch

We were proud to have been a Gold Sponsor of the Coastal Goddess Women's Health Luncheon

At Life Medical Imaging, we're committed to supporting women's health through accessible, high-quality care. As an independently owned and operated provider, we offer a comprehensive range of diagnostic imaging and interventional procedures, with a dedicated focus on women's imaging.

With a strong presence on the Central Coast, our team is passionate about improving local health outcomes through advanced technology and genuinely patient-centred care.

It was a privilege to be part of such a meaningful event, helping bring important conversations around women's health to the forefront while supporting those in our community.

Bone Lab Education Evening

Life Medical Imaging was proud to recently participate in The Bone Lab Education Evening, hosted by Rhiannon Wilton from Conveniently Active. The event brought together local health professionals to educate participants on osteoporosis, osteopenia, and the importance of proactive bone health management.

Alongside presentations from Rhiannon on the role of exercise in building and maintaining bone strength, and dietitian Nicole Saliba from Eat Sense on nutrition strategies for bone health, Dr Vikram Sagar from Life Medical Imaging provided valuable insights into Bone Mineral Density (DEXA) scanning and its role in assessing bone health and identifying risk factors for osteoporosis. We are pleased to support initiatives such as The Bone Lab that empower our community with practical knowledge and encourage a proactive approach to long-term health and wellbeing.

Community Support & Partnerships

At Life Medical Imaging, we are proud to support initiatives that contribute to the health and wellbeing of our local community.

Life Medical Imaging is proud to support Central Coast Basketball and the local sporting community.

As a locally owned and operated imaging provider, we're passionate about supporting organisations that bring people together, encourage active lifestyles, and create opportunities within our community.

We love seeing local athletes, teams, and supporters thrive both on and off the court, and we're proud to stand behind Central Coast Basketball throughout the season.

Life Medical Imaging proudly supports Woy Woy Rugby Club.

As an independently owned and operated imaging provider on the Central Coast, we're passionate about supporting the health and wellbeing of our local community - both on and off the field.

We're proud to partner with a club that shares strong community values, teamwork, and dedication, and we look forward to supporting the players, members, and supporters throughout the season ahead.

Community Support

Featuring New Clinical Blog Articles

[Life Medical Imaging Steps Up Again for Central Coast Run Fest](#)

As one of the Central Coast's most anticipated community sporting events, Run Fest brings together runners,

families, local businesses and supporters in a celebration of health, wellbeing and community spirit.

[CT Coronary Angiography CTCA vs Stress Testing: Understanding Your Heart Imaging Options](#)

Understanding the difference between these tests can help patients feel more informed about their care and the reasons behind their referral.

Get in Touch

Thank you for your continued support of Life Medical Imaging.

Over the past few months, we have been pleased to expand our services, strengthen community partnerships, and contribute to local education initiatives that support better health outcomes across the Central Coast. Whether through new clinical offerings, patient-focused improvements, or involvement in community events, our goal remains the same: to provide exceptional care and a seamless experience for both patients and referrers.

We value our partnership with you and look forward to keeping you informed through future updates, educational opportunities, and practice developments.
